RULEBOOK

blacksheepartygame.com

For 3-10 players | Ages 18+

GETTING STARTED

- 01** Lay out 15–25 question cards, image side up.
- 02** Put the point tokens in a bowl and the Nomination cards (A and B) in the standees.
- 03** Give each player an "A / YES" and a "B / NO" answer card.
- 04** The player wearing the most black goes first.
- 05** Start by picking a card and reading it out loud.

YES / NO CARDS

- 01** Everyone places a "Yes" or "No" answer card face down.
- 02** Once everyone has chosen, flip the cards face up to reveal the answers.
- 03** Players who chose the more popular answer each get a point token.

Eg. 5 "Yes" vs. 3 "No" -- the "Yes" players each get a point. In a tie, no one gets a point.

NOMINATE CARDS

- 01** When a player picks up a "Nominate" card, they assign any two players as "A" and "B".
- 02** Players vote for who they think best fits the nomination -- answer card face down.
- 03** Once everyone has voted, flip the answers up.
- 04** Players who voted with the majority get a point token.

In a tie, only the active player (the one who picked the card) gets a point.

WINNING THE GAME

YOU WIN IF YOU DON'T LOSE!

The player with the fewest points when the tokens run out is the...

BLACK SHEEP!

(the odd one out -- the outsider -- the loser.)

Everyone else wins. Revel in it.

The Black Sheep is the player who's not with the crowd.
Embrace it, laugh about it, and go again.

A FEW NOTES

- The active player picks a number for question cards with a blank value (___).
- All players vote each round, including the player who picked up the card.
- The active player can nominate themselves.
- Questions can be read before or after nominees are chosen.
- Picking unexpected or unlikely players for nominations can be fun.
